## **PORAMO** Rood

Country: Spain
Alcohol degree: 19 %
Serve at: +/- 16°C

Serve with: aperitif, dessert, foie gras, different

types of cheese

**Description:** This is an excellent aperitif wine that

has a lot in common with Porto. It has an intense nose of fresh raspberries, subtle hints of cherries and above all pure aromas of walnuts and a little smokiness. PORAMO has a firm texture and is very mouthfilling. The powerful and tasteful aromas assure a long aftertaste. You will find a nice harmony between sweetness and alcohol degree. This is what makes Poramo an excellent alternative for

Porto.
