

## **CREME de CASSIS**

**Country:** France

**Region:** Alsace

**Alcohol degree:** 16 %

**Description:** This dark red liquor is made of concentrated blackberry juice and a delicious blackcurrant extract. The natural ingredients may cause the colour of the Crème de Cassis to incline to brown under the influence of the sun or bright light, but without losing any of its quality when it is not kept too warm. This sweet concentrated blackcurrant liquor is an important element for creating the famous « KIR » and 'KIR ROYAL'. Besides this, the CREME DE CASSIS DE BOURGOGNE is a great element for preparing many other cocktails and long drinks.
